**Subject:** Proposed Resolution

Dear Bishop Sheard:

Holy Greetings Sir:

Bishop Sheard I am sending you this email to inform you that I have just spoken with Bishop Kyles. He is on copy. After much prayer and consideration Bishop Kyles has decided he would like to bring his matter to a close.

I told him that to my understanding it would be mutually agreeable that if he "agreed to admitting to Conduct Unbecoming A Bishop", or something like that, his suspension would be lifted immediately and everyone could all move on together in peace and harmony. In addition to the fact that much healing is needed and he is clearly sorry for everything that has happened. After much conversation with him sir, He is Godly Sorry! I can personally vouch for that!

I told Bishop Kyles that if he agree to this that He would be back over his Jurisdiction, churches etc.... and you could welcome him back in the Board of Bishop Chamber as a brother. Not as a defendant who just used legalism to get a resolution. His heart is NOT there. It's been such an ordeal for him and so many others I until I really think Bishop Sheard, he just needed the time to get where he is right now! He has been broken sir, but at the same time I predict his ministry will thrive as a result of his humility and his willingness to submit himself to his peers and you sir, as the Chairman.

Of course Attorney Watson & Attorney Brooker can do the final wording etc. But he wanted to make sure that this you knew this was his heart. I am sure he will tell you more when you two speak. I assured him Bishop Sheard that you were a man of great compassion and that you would do what you can to help him thrive in ministry again, after you finalize this arrangement!

God bless you sir and please "forgive" me for once again butting my nose inside of your "Chamber"! Again, you all can work out the formal documents to will need to be signed. Given the damages involved as it relate to the vacuum of Leadership in Houston right now as a result of how things have been handled during Bishop Kyles suspension, I truly believe that "TIME IS OF THE ESSENCE"!

Respectfully,

Moses Tyson, Jr
